Project Reference:

Job Site :

Execution Date:

TECHNICAL DATASHEET				
<b>PROJECT INFORMATION</b>				
Item nr. / Ref.				
Quantity				
Application				
Purpose intervention				
Time span customers work	uur			
Bypass option				
Bypass size & length				
<b>HEADER - PIPELINE SPECIFICATIONS</b>				
Type of pipe				
Size - nominal				
Size - measured	Horizontal:		Vertical:	
Wall thickness - nominal				
Wall thickness - measured - 0-3-6-9 hrs.	0h:	3h:	6h:	9h:
Pipe material				
Orientation / position of pipeline				
Remarks: coating/ isolation / tracing ..				
<b>CONTENT INFORMATION</b>				
Content				
Operating pressure	bar			
Operating temperature	°C			
Max. Flow during intervention	m/ sec			
H2S Concentration				
<b>LOCATION / WORKING ENVIRONMENT</b>				
Free working space - length / width				
Location				
Work pit / scaffolding / or...				
Height / depth				
<b>TO BE FILLED IN BY TDW</b>				
<b>FITTING SPECIFICATIONS</b>				
Type of Plugging fitting				
Size				
Orientation				
Design pressure pipeline	bar			
Design temperature pipeline (min. & max.)	°C			
Design code & factor				
Type of pressure equalization fitting				
Orientation				
<b>VALVE SPECIFICATIONS</b>				
Type of valve				
<b>EQUIPMENT</b>				
Type of Hot-Tap machine / weight / length				
Type of Plugging machine / weight / length				
Power source				
Size cutter				
<b>IMPORTANT CUSTOMER INFORMATION</b>				
<p>If we receive only limited information, we will provide you with a budget proposal only. As soon as we have all relevant information, we will either confirm or revise our subject proposal accordingly.</p> <p>To be able to guarantee a good execution of the job required, it's imperative that all information requested above is known by us. Please note without this information, we cannot commence / start processing your order.</p>
